Subject: SCCAC Meeting January 21, 2016 **Attachments:** IMG_0035.pdf; ATT00001.htm

Hi Sarah,

I have just had a medical appointment confirmed for Thursday morning and will be unable to attend the SCCAC meeting. I would appreciate your help in providing this email to the other members.

I have attached the most recent enrolment numbers for the schools in Sooke. I think this would be helpful in gaining a good understanding of the number of K-12 children in our area. It is also a good "window" on where our families with children currently reside. This past year SD 62 enrolment increased by over 350 students.

SD 62 staff have recently held meetings with Ministry of Education staff in order to "audit " this significant increase . Initially S 62 had assumed that our enrolment increase would be related to lower housing costs for families in the Western communities and that the two new high schools had attracted secondary school students back to our District . The Ministry audit presented a different demographic . Most of the increase was accounted for by families **returning** to our communities and families **not leaving** our area . This likely reflects the down turn in the Alberta economy . Additionally the Ministry of Education analysis , moving forward , indicates that SD 62 should plan for over **300 additional students in each of the next 3 years** and that enrolment increase will continue over the next 10 years . Actually , in percentage terms , SD 62 is now the fastest growing school district in BC . This is very important demographic information when it comes to community planning concerning children and families .

I believe SEAPARC may have now approved the joint use agreement with SD 62. The parties should soon be able to provide the SCCAC with a "hard" copy.

My apologies for not being able to attend the Jan 21 meeting. I am still willing, schedule permitting, to be a member of the SCCAC "youth sub-committee".

Thanks,

Bob Phillips, trustee, SD 62
