1. Introduction

The District of Sooke requires the services of a qualified firm to provide a proposal for repainting 15 streetlights that have rusted and peeled paint on the poles. **The target completion date is July 31st, 2018.** Respondents may view the site primarily along Rhodonite Drive between Townsend Road and Church Road.

2. Project Scope of Work

A. Background

Several streetlights installed in 1997 are peeling or have deteriorated to a degree where rust is showing, and they need to be repainted. Two streetlights that had significant rust around the base have now been repaired and have primer paint around the repair.

B. Deliverables

The successful proponent is to complete the following as part of the minimum scope of work:

Preparation

- Describe within the proposal how the streetlights would be prepared prior to painting (i.e. how it would be sanded, to what degree, etc);
- The proposal must describe how the streetlights are to be primed for final paint adhesion; detailing what product is used and why;
- A 'direct to metal' primer and paint combination application will not be considered effective;

Paint

- The proposal must describe the painting process, the number of coats, and how the paint chosen will inhibit rust;
- The colour must conform to **Moss Green RAL6005TX**, as identified by the Subdivision and Development Standards Bylaw No. 404, 2014;

General Conditions

- Remove and dispose of all excess construction material, waste material, unused fill or other debris left over from all work performed, and upon completion of work return the road ROW and surrounding area to pre-construction conditions or better; and
- Provide all flagging, signage and traffic management as required.
- All work shall conform to the Master Municipal Construction Documents (MMCD) Platinum Edition Volume II, and District of Sooke Bylaw No. 404, Subdivision and Development Standards. All references to "MMCD" in this document refer to the MMCD Platinum Edition Volume II, published in 2009;
- The Contractor shall be solely responsible for construction means, methods,

techniques, sequences, and procedures for coordinating the various parts of the work in the Scope of Work, General Conditions, and Site Specific Conditions;

C. Resources

The Subdivision and Development Standards Bylaw No. 404, 2014 is available on the District website (www.sooke.ca).

The proposal may include one or more quotations, must include estimated hours and timeframe involved and a letter of introduction, including name and address of Proponent and details of potential partnerships and business agreements contemplated for the project.

Proponents should submit two (2) original hard copies plus one (1) digital (.pdf) copy (CD/DVD/memory stick), of their Proposal.
